

 Listen to the Forest — Video-Produktionsplan

OpenMycoNet · YouTube · ca. 5:12 Min · 1920×1080 · Kling Image-to-Video

1 · Gesamtstruktur & Zeitplan

Segment	Zeitcode	Inhalt	Shots	Hinweis
Intro	0:00 – 0:05	OpenMycoNet-Logo auf schwarzem Hintergrund, Myzel-Textur fade-in	Shot 00	Kein Kling — Logo-Grafik in DaVinci / After Effects
Verse 1	0:05 – 0:56	Waldstimmung etablieren, Myzel einführen	Shots 01–03	Langsamste Bewegungen, Stimmung aufbauen
Chorus 1	0:56 – 1:30	Waldpanorama + Netzwerk-Visualisierung	Shots 04–05	Breiteres Bild, epischer Feel
Verse 2	1:30 – 2:24	Resilienz: Sturm, Erneuerung, Licht	Shots 06–08	Dynamischere Bilder, mehr Kontrast
Chorus 2	2:24 – 2:54	Waldpanorama (Variation) + Netzwerk intensiver	Shots 09–10	Variationen von Shots 04–05
Bridge	2:54 – 3:30	Mensch berührt Natur / BioComm Sensor	Shots 11–12	Einzige Menschen- / Technik-Elemente im Video
Chorus 3	3:30 – 3:54	Luftaufnahme Kronendach	Shot 13	Perspektivwechsel: von unten zu oben
Outro-Vers	3:54 – 4:59	Macro-Rückzug + Rückkehr Eröffnungsbild (Sonnenaufgang)	Shots 14–15	Emotionaler Abschluss, Kreisbogen zum Anfang
Outro Branding	4:59 – 5:12	Logo, URL openmyconet.de, Fade to Black	Shot 16	Kein Kling — statisches Logo + Schrift

2 · Shot List (Detailliert)

Basis-Stil alle Shots: cinematic · photorealistic · warm amber & deep green · misty forest · 16:9 · no text

#	Zeitcode	Abschnitt	Bildmotiv	Kling-Bewegung	Lyric-Overlay
00	0:00–0:05	INTRO	OpenMycoNet-Logo, schwarzer BG, Myzel-Textur fade-in	Static / fade in	—
01	0:05–0:20	Verse 1 Z.1–2	Cinematic wide: uralter Buchenwald bei Morgengrauen, goldenes Licht durch Nebel, tiefe Stille	Slow dolly forward	Beneath the roots and fallen leaves...
02	0:20–0:38	Verse 1 Z.3–4	Bodennah: Wurzeln und Laub, darunter schimmerndes weißes Myzel im Boden	Slow tilt down to ground	A silent web has always grown...
03	0:38–0:56	Verse 1 Z.5–8	Extreme Makro: Myzel-Fäden im dunklen Boden, Biolumineszenz-Glühen, Bernstein-Licht	Slow push in, micro-zoom	No voice, no words, no beating heart...
04	0:56–1:18	Chorus 1	Wide Waldpanorama: Baumstämme im Nebel, goldenes Gegenlicht, Bodennebel	Slow crane up from ground	Listen to the forest / Listen to the ground...
05	1:18–1:30	Chorus 1 – Netz	Dunkler Waldboden von oben: leuchtendes Myzel-Netz wie biolumineszenter Schaltkreis	Top-down slow zoom out	A million unseen pathways...
06	1:30–1:48	Verse 2 – Sturm	Dramatischer Wald im Regen: Bäume im Wind, Regentropfen im Gegenlicht, dunkler Himmel	Handheld-style slight sway	Through storm and fire...
07	1:48–2:06	Verse 2 – Erneuer.	Waldrand: verbrannte Stämme, erste grüne Triebe aus Asche, Morgenlicht	Slow push dark to green	It feeds the weak, it shares the light...
08	2:06–2:24	Verse 2 – Licht	Weitwinkel-Innenansicht: Lichtstrahlen durch Kronendach, Unterholz und Keimlinge	Slow tilt up toward canopy	It keeps the balance out of sight...
09	2:24–2:42	Chorus 2	Waldpanorama Variation: Blickwinkel etwas höher, mehr Kronendach sichtbar	Slow float forward	Listen to the forest...
10	2:42–2:54	Chorus 2 – Netz	Top-down Myzel-Netz enger, intensiveres Glühen als Shot 05	Slow zoom in to node	A language yet unknown...
11	2:54–3:12	Bridge – Hand	Makro: menschliche Hand berührt moosbewachsenen Baumstamm, warmes	Static, slow focus pull	Science lights the pathway...

			Licht		
12	3:12–3:30	Bridge – Sensor	BioComm Node Sensor am Baumstamm, Moos und Rinde, LED leuchtet sanft, Waldnebel	Very slow push in to sensor	Every signal matters...
13	3:30–3:54	Chorus 3	Luftaufnahme: Kronendach von oben, Morgennebel steigt auf, goldenes Gegenlicht	Slow drone drift right	Listen to the forest / Listen to the trees...
14	3:54–4:18	Outro – Netz	Extreme Makro Myzel, sehr langsam ausziehend, Netz wächst ins Bild	Ultra-slow pull back	Beneath our feet / The network waits...
15	4:18–4:59	Outro – Sunrise	Rückkehr Eröffnungsbild mit erstem Sonnenlicht, sanfter Überblend	Same dolly as Shot 01, sunrise	And we have just begun...
16	4:59–5:12	OUTRO Brand.	OpenMycoNet-Logo, URL openmyconet.de, schwarzer BG, Myzel fade-out	Fade to black	openmyconet.de

3 · Kling Image-Prompts (Copy-Paste)

Workflow: (1) Prompt → Kling Image Generator → PNG 1920×1080 exportieren · (2) PNG → Kling Image-to-Video → Motion Prompt eingeben

Basis-Stil (an jeden Prompt anhängbar): Cinematic, photorealistic, warm amber and deep green forest tones, misty light, 16:9, no people, no text

#	Shot	Kling Image-Prompt (EN — Copy/Paste)	Animations-Hinweis I2V
01	Establishing Shot	Cinematic wide shot of an ancient beech and oak forest at dawn, misty golden light filtering through tall tree trunks, thick carpet of fallen leaves and moss, shallow roots visible at forest floor level, warm amber and deep green color palette, no people, no text, photorealistic, 16:9	Slow dolly forward, 5–8 sec
02	Roots & Ground	Ground-level shot of ancient tree roots intertwined with faintly glowing white mycelium threads in dark moist forest soil, subtle golden backlight from above, deep shadows, photorealistic, cinematic, warm amber tones, no people, 16:9	Slow tilt down, 5 sec
03	Mycelium Macro	Extreme macro photograph of white mycelium filaments spreading through dark soil, faint bioluminescent glow, fine fungal threads surrounded by tiny root hairs and soil particles, warm amber accent light, deep black background, photorealistic, 16:9	Slow push in, micro-zoom, 5 sec
04	Forest Floor Wide	Wide cinematic shot looking horizontally along a misty temperate forest floor at dawn, morning fog hovering low above fallen leaves and moss, towering ancient beech trunks receding into soft foggy distance, warm golden backlight, photorealistic, 16:9	Slow crane up from ground, 8 sec
05	Network Top-Down	Dark forest floor viewed from directly above, white glowing mycelium web spreading in all directions connecting dozens of root bases like a bioluminescent circuit board, warm white-amber glow against black earth, no text, photorealistic, 16:9	Top-down slow zoom out, 6 sec
06	Storm & Rain	Dramatic cinematic shot of a temperate forest during a heavy rainstorm, ancient beech trees bending slightly in wind, raindrops catching light on bark and leaves, dark stormy sky visible through canopy gaps, warm amber light on trunks, photorealistic, 16:9	Slight handheld sway, 5 sec
07	Fire to Renewal	Forest edge where charred black tree trunks give way to vivid green young saplings and ferns emerging from ash-covered ground, soft morning light, strong contrast between burned wood and fresh growth, photorealistic, cinematic, 16:9	Slow push from dark to green, 6 sec
08	Light & Canopy	Wide angle interior forest shot, dramatic shafts of golden sunlight breaking through a dense deciduous canopy reaching small saplings and ferns on mossy forest floor below, photorealistic, cinematic, warm amber-green palette, 16:9	Slow tilt up toward light, 5 sec
09	Chorus Wide V2	Cinematic wide forest panorama at dawn from slightly higher angle, more canopy visible overhead, morning mist between trunks, warm golden backlight, ancient beech forest, photorealistic, 16:9 — MATCH MOOD OF SHOT 01	Slow float forward, 8 sec
10	Network Closer	Dark forest floor top-down view, glowing white-amber mycelium web connecting root bases, camera closer than Shot 05, brightest central node visible, bioluminescent threads, photorealistic, 16:9	Slow zoom in to center node, 5 sec
11	Hand on Tree	Close-up of a single human hand gently resting on an ancient moss-covered beech tree trunk, warm soft ambient light, sharp texture of gray bark and bright green moss, blurred misty forest background, photorealistic, cinematic, 16:9	Static, slow focus pull bark→moss, 6 sec
12	BioComm Sensor	Small weatherproof electronic sensor device with a faint green LED glow, mounted low on a forest tree trunk surrounded by natural moss and textured bark, soft misty forest background, warm ambient forest light, photorealistic, cinematic, 16:9	Very slow push in to sensor LED, 6 sec

13	Aerial Canopy	Drone-style aerial wide shot looking down at a dense temperate forest canopy from above, morning mist rising between treetops, golden sunrise light catching upper leaves, rich greens and golds, photorealistic, cinematic, 16:9	Slow aerial drift right, 8 sec
14	Macro Pullback	Extreme macro of glowing white mycelium network threads in dark forest soil, subtle warm amber bioluminescence, very fine filament detail, photorealistic, 16:9	Ultra-slow pull back to reveal network scale, 8 sec
15	Return – Sunrise	Same composition as Shot 01: ancient beech and oak forest at dawn, but now with first direct sunlight rays breaking through the canopy, slightly warmer golden tones, same amber-green palette, photorealistic, 16:9	Same dolly as Shot 01, sunrise warmth, 8 sec

4 · Lyric-Overlay Timing

Schrift: Montserrat Light · Farbe: Weiß + Drop Shadow · Position: 80% Bildhöhe · Größe: ~48pt bei 1920px · Fade In/Out: 0,3 Sek

Von	Bis	Lyric-Text
0:05	0:09	Beneath the roots and fallen leaves
0:10	0:14	Beyond the world our eyes can see
0:15	0:19	A silent web has always grown
0:20	0:24	A hidden life beneath our own
0:25	0:29	No voice, no words, no beating heart
0:30	0:34	Yet every thread becomes a part
0:35	0:40	Of something ancient, vast and deep
0:41	0:55	Awake below while we still sleep
0:56	1:01	Listen to the forest
1:02	1:07	Listen to the ground
1:08	1:13	The oldest living network
1:14	1:18	Has always been around
1:19	1:24	A million unseen pathways
1:25	1:29	A language yet unknown
1:30	1:36	We are only learning
1:37	1:47	How to hear its tone
1:48	2:23	[Verse 2 — identische Struktur wie Verse 1, Zeitcodes analog versetzt]
2:24	2:53	[Chorus 2 — identisch zu Chorus 1]
2:54	2:59	Science lights the pathway
3:00	3:05	Wonder starts the flame
3:06	3:11	Questions lead us forward
3:12	3:17	Before we know the name
3:18	3:23	Every signal matters
3:24	3:29	Every voice may grow
3:30	3:53	[Chorus 3 — identisch zu Chorus 1]
3:54	4:06	Listen to the forest
4:07	4:17	Listen to the hidden world / Beneath the roots we see
4:18	4:32	A million unseen pathways / Connected all as one
4:33	4:45	And we have just begun
4:46	4:52	We have just begun
4:53	4:59	Beneath our feet — The network waits — And we have just begun — To listen
4:59	5:12	openmyconet.de

5 · Branding & YouTube

Intro / Outro (Shots 00 & 16)

- Hintergrund: Schwarz (#000000) · Logo: OpenMycoNet PNG mit Transparenz, zentriert
- Shot 16: URL openmyconet.de — Montserrat, weiß, 60pt
- Myzel-Textur als 50% Opacity Overlay-Animation (Partikeleffekt oder Kling-Loop)

YouTube Upload-Checkliste

- **Titel DE:** Hör dem Wald zu — Das verborgene Netzwerk unter unseren Füßen
- **Titel EN:** Listen to the Forest — The Hidden Network Beneath Our Feet
- **Tags:** mycorrhiza · mycelium · forest network · citizen science · biocomm · fungi · nature
- **Thumbnail:** Shot 05 (Netzwerk Top-Down) mit Logo-Overlay
- **Kategorie:** Science & Technology · **Sprache:** Englisch
- **Untertitel:** SRT-Datei hochladen (DE + EN) · **Lizenz:** Standard YouTube (kein CC — Suno-Content)

Website-Einbindung (openmyconet.de)

- YouTube-iframe embed (responsive 16:9) auf index.html oder dedizierte /video.html
 - Schema.org VideoObject Markup für SEO
-

6 · Produktions-Workflow

- Schritt 1 Bilder generieren:** Jeden Prompt (Shots 01–15) in Kling Image Generator → PNG 1920×1080 exportieren
- Schritt 2 Animation:** Jedes Bild → Kling Image-to-Video → Motion Prompt eingeben → 5–8 Sek Clip erzeugen
- Schritt 3 Schnitt:** Alle Clips in DaVinci Resolve / CapCut → Shot-Reihenfolge + Übergänge
- Schritt 4 Audio:** listen-to-the-forest.mp3 als Haupt-Audio-Spur einlegen
- Schritt 5 Branding:** Intro / Outro (Shots 00 + 16) als Grafik-Layer hinzufügen
- Schritt 6 Lyrics:** Untertitel-Layer mit Timing aus Tabelle 4 (Weiß, Drop Shadow)
- Schritt 7 Export:** H.264 oder H.265 · 1920×1080 · 25fps · 10–15 Mbit/s
- Schritt 8 Upload:** YouTube + iframe-Einbettung auf openmyconet.de
